-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 26 January 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

2. Claims 5 and 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. The claims contain improper Markush language. Proper Markush language is "selected from the group consisting of".

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1, 2, 4, 5, 9-14 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Joye 6,541,428.
6. Joye discloses a sulphurized orthophosphate composition in claims 1-6, including ammonium and metal salts in claim 5, sodium and potassium salts in column 2, lines 63-65, and the process of making the compound with alcohol addition in claims 7-16. Applicant's claims are not novel.

Claim Rejections - 35 USC § 103

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claims 1, 2, 4, 5, 9-14 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Joye et al. 6,541,428.

9. The reference has been discussed already. It would have been obvious to one having ordinary skill in the art; at the time the invention was made, to select Na and K from a list of equivalents.

10. Claims 1-3, 5-14, 18 and 19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Forestiere et al. 7,160,836.

11. Forestiere et al. teach a phosphorus containing compound and the process of making it in claims 5 and 27, trialkylsilyl group in column 3, lines 6-19 and alkali metal cations in column 3, lines 40-41. For method of making the compound see the Examples, for polysulphides see column 1, lines 10-21. It would have been obvious to one having ordinary skill in the art; at the time the invention was made, to select polysulphides from a list of equivalents. Although the sulfur-containing compound is reacted with a metal oxide, it exists prior to the reaction.

Allowable Subject Matter

12. Claims 15, 16 and 21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

13. Claim 17 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

14. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter Szekely whose telephone number is (571) 272-1124. The examiner can normally be reached on 7:00 a.m.-5:30 p.m. Tuesday-Friday.
